

ISO/IEC 24039:2022-06 (E)

Information technology - Smart city digital platform reference architecture - Data and service

Contents		Page
Foreword.....		v
Introduction.....		vi
1	Scope.....	1
2	Normative references.....	1
3	Terms and definitions.....	1
4	Overview.....	2
5	Design principles.....	3
6	Reference architecture.....	4
7	Technical support.....	5
	7.1 Data collection.....	5
	7.2 Data processing.....	6
	7.3 Data storage.....	6
	7.4 Development and testing.....	7
	7.5 Operating tool.....	7
	7.5.1 Life cycle management.....	7
	7.5.2 System operation.....	7
8	Resource management.....	8
	8.1 Data governance.....	8
	8.1.1 Data ownership identification.....	8
	8.1.2 Metadata management.....	8
	8.1.3 Data quality.....	9
	8.1.4 Data policy.....	9
	8.2 Data assets management.....	9
	8.2.1 Data asset identification and registration.....	9
	8.2.2 Data asset directory and catalogue management.....	10
	8.2.3 Data asset model.....	10
	8.2.4 Data asset association.....	10
	8.2.5 Data asset security.....	10
	8.3 Data intelligence.....	11
	8.3.1 Data training.....	11
	8.3.2 Data analysis.....	11
	8.3.3 Data visualization.....	12
	8.4 Service decoupling.....	12
	8.5 Domain model.....	12
	8.5.1 Domain knowledge.....	12
	8.5.2 Domain business logic.....	12
	8.6 Service extraction.....	13
9	Capability exposure.....	13
	9.1 Data service.....	13
	9.2 Data operation.....	13
	9.2.1 Authorization.....	13
	9.2.2 Circulation.....	14
	9.3 Data portal.....	14
	9.4 Service integration.....	14
	9.4.1 Service interaction.....	14

	9.4.2	Service encapsulation	15
9.5		Service delivery	15
	9.5.1	Service accessibility	15
	9.5.2	Delivery management	15
	9.5.3	Service evaluation	15
10		Interface	16
	10.1	Collection interface	16
		10.1.1 Secure access	16
		10.1.2 Digital representation	16
		10.1.3 Command distribution	16
		10.1.4 Message push	16
		10.1.5 Service access	16
		10.1.6 Protocol and format translation	17
	10.2	Delivery interface	17
		10.2.1 Authentication	17
		10.2.2 Inquire	17
		10.2.3 Subscription	17
		10.2.4 Procedure call	17
		10.2.5 System call	17
		10.2.6 Application programming interface (API)	17
		Annex A (informative) Example of SCDP data service reusability	18
		Annex B (informative) Elaboration with ISO/IEC 30145-3	20
		Bibliography	22
