

# ISO/IEC 23220-1:2023-02 (E)

## Cards and security devices for personal identification - Building blocks for identity management via mobile devices - Part 1: Generic system architectures of mobile eID systems

---

| <b>Contents</b>   |   | <b>Page</b> |
|---|---|-------------|
| Foreword .....  |   | iv          |
| Introduction .....  |   | v           |
| 1   | Scope .....   | 1           |
| 2   | Normative references .....  | 1           |
| 3   | Terms and definitions .....   | 1           |
| 4   | Abbreviated terms .....   | 6           |
| 5   | Design and privacy principles of mobile document systems .....                      | 7           |
| 5.1   | Design principles .....   | 7           |
| 5.2   | Privacy and security principles .....   | 8           |
| 5.2.1   | General .....   | 8           |
| 5.2.2   | Data minimization .....   | 8           |
| 5.2.3   | Consent and choice: .....   | 8           |
| 5.2.4   | Accuracy and quality .....  | 8           |
| 5.2.5   | Information security .....  | 9           |
| 6   | General life-cycle phases and components of mobile document systems .....           | 9           |
| 6.1   | Life-cycle phases of mobile document systems .....                                  | 9           |
| 6.2   | Components of a mobile document system .....  | 10          |
| 6.2.1   | Operational modes of components .....   | 10          |
| 6.2.2   | Components of mobile document systems .....   | 11          |
| 7   | Generic system architectures of mobile document systems in installation phase ..... | 13          |
| 8   | Generic system architectures of mobile document systems in issuing phase .....      | 15          |
| 8.1   | Source of user attributes .....   | 15          |
| 8.2   | Generic sub-phases of issuing phase .....   | 15          |
| 8.3   | System architectures in sub-phases user identification and mID-discovery .....      | 16          |
| 8.4   | Architectures in sub-phase issuance .....   | 18          |
| 8.5   | Monitoring service in issuing phase .....   | 20          |
| 9   | On-site identification system architecture in operational phase .....               | 21          |
| 9.1   | General sub-phases of on-site identification system architecture .....              | 21          |
| 9.2   | On-site identification system architecture with local attribute storage .....       | 21          |
| 9.3   | On-site identification system architecture with remote attribute storage .....      | 22          |
| 10  | Remote identification system architecture in operational phase .....                | 23          |
| 10.1  | General .....   | 23          |
| 10.2  | Remote identification system architecture with local attribute storage .....        | 23          |
| 10.3  | Remote identification system architecture with remote attribute storage .....       | 25          |
| Annex A (informative) Examples of deployment options for issuers in issuing phase ..... |   | 28          |
| Annex B (informative) Examples of deployment options in installation phase .....        |   | 35          |

|  |           |
|--|-----------|
| <b>Annex C (informative) Examples of holder enrolment .....</b>                                | <b>39</b> |
| <b>Annex D (informative) Examples of additional physical factor(s) of authentication .....</b> | <b>43</b> |
| <b>Bibliography .....</b>  | <b>47</b> |
