

ISO/IEC 5152:2024-07 (E)

Information technology - Biometric performance estimation methodologies using statistical models

Contents		Page
Foreword.....		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Symbols and abbreviated terms		2
5 Conformance		2
6 Details of estimation		2
6.1 Estimation of biometric performance based on extreme value theory		2
6.2 Estimation design		3
6.3 Generalized extreme value distribution		3
6.4 Generalized Pareto distribution		5
6.5 Evaluation of the fitness of the model		7
6.6 Selection of rGEV and GP		8
6.6.1 Differences between the two methodologies		8
6.6.2 Features of the two methodologies		9
7 Performance metrics		9
8 Record keeping		10
9 Reporting estimation results		10
9.1 Reporting one-to-one comparison performance		10
9.2 Reporting estimation results		10
9.3 Reporting form		11
Annex A (informative) Extreme value theory		13
Annex B (informative) Examples applied to multiple modality datasets to demonstrate the validity of the methodology		18
Bibliography		25
