## Information technology - Biometric performance testing and reporting - Part 10: Quantifying biometric system performance variation across demographic groups

### Contents

Page

- Foreword..... v
- Introduction ..... vi
- 1 Scope ..... 1
- 2 Normative references ..... 1
- 3 Terms and definitions ..... 2
- 4 Conformance ..... 4
- 5 Planning the evaluation ..... 4
  - 5.1 Identifying the scope of the evaluation ..... 4
  - 5.2 Demographic variables ..... 5
    - 5.2.1 Ground truth requirements ..... 5
    - 5.2.2 Categorical demographic variables ..... 5
    - 5.2.3 Continuous demographic variables ..... 7
    - 5.2.4 Other demographic variables ..... 8
- 6 Executing the evaluation ..... 8
  - 6.1 Generation of mated comparison and identification trials ..... 8
  - 6.2 Generation of non-mated comparison and identification trials ..... 8
    - 6.2.1 General ..... 8
    - 6.2.2 Verification (1:1) ..... 8
    - 6.2.3 Identification (1:N) ..... 8
  - 6.3 Selection of a threshold ..... 9
  - 6.4 Calculating differential performance based on categorical variables for two specific demographic groups ..... 9
    - 6.4.1 General ..... 9
    - 6.4.2 Differential performance between two groups based on mathematical difference ..... 9
    - 6.4.3 Differential performance between two groups based on mathematical ratio ..... 10
  - 6.5 Calculating differential performance based on categorical variables for more than two groups ..... 10
    - 6.5.1 General ..... 10
    - 6.5.2 Differential performance for more than two groups based on the largest error rate relative to the geometric mean ..... 10
    - 6.5.3 Differential performance for more than two groups based on the Gini coefficient ..... 11
  - 6.6 Calculating differential performance in identification trials ..... 11
  - 6.7 Calculating demographic differentials for failure-to-enrol rate, failure-to-acquire rate and transaction duration ..... 12
  - 6.8 Calculating demographic differentials for continuous variables ..... 12
  - 6.9 Comparison score differential measures ..... 13
  - 6.10 Calculating uncertainty ..... 14
    - 6.10.1 Uncertainty in demographic differentials ..... 14
    - 6.10.2 Sampling the target population ..... 14
    - 6.10.3 Sample size requirements ..... 15
- 7 Reporting the evaluation results ..... 16
  - 7.1 Reporting the experimental design ..... 16
  - 7.2 Reporting the target application ..... 16
  - 7.3 Reporting the test population ..... 16
  - 7.4 Reporting differential performance ..... 17
    - 7.4.1 Reporting differential performance on previously collected datasets ..... 17
    - 7.4.2 Reporting differential performance for two or more groups ..... 17

7.4.3	Reporting differential performance against a benchmark .....	18
7.4.4	Reporting error trade-off metrics .....	18
7.4.5	Reporting threshold management policy.....	18
7.5	Reporting comparison score differential measures .....	18
7.6	Reporting exception handling .....	19
<b>Annex A (informative) Example of estimating sample size for differential performance.....</b>		<b>20</b>
<b>Annex B (informative) Calculating aggregate equitability measures.....</b>		<b>23</b>
<b>Bibliography.....</b>		<b>25</b>
