

# ISO/IEC 30194:2024-12 (E)

## Internet of things (IoT) and digital twin - Best practices for use case projects

---

Contents	Page
FOREWORD.....	4
INTRODUCTION.....	5
1 Scope.....	6
2 Normative references.....	6
3 Terms and definitions.....	6
4 Abbreviated terms.....	7
5 Use cases.....	7
5.1 General.....	7
5.2 Conceptual model of a use case.....	8
6 Use case projects.....	9
6.1 Purpose.....	9
6.2 Examples of use case projects.....	9
6.2.1 Study project.....	9
6.2.2 Guidance project.....	9
6.2.3 Business project.....	10
6.2.4 Business expectation project.....	10
6.2.5 System project.....	11
7 Use case templates.....	12
7.1 Purpose.....	12
7.2 Conceptual model of use case template.....	12
7.3 Template description.....	13
7.3.1 Overall structure.....	13
7.3.2 Description blocks.....	14
7.3.3 Predefined fields.....	15
7.3.4 Instructions.....	16
7.3.5 Samples.....	16
8 Use case project plans.....	19
8.1 Purpose.....	19
8.2 Use case initiative governance process.....	20
8.3 Template development process.....	20
8.4 Template maintenance process.....	21
8.5 Use case development process.....	22
8.6 Use case maintenance process.....	22
Annex A (informative) Examples of use case projects.....	24
A.1 Overview.....	24
A.2 IoT.....	25
A.3 Digital twins.....	26
A.4 Artificial intelligence.....	28
A.5 Privacy of consumer goods and services.....	29
Bibliography.....	31
