EAS 18425:2026-08 (E)

Requirements for implementation tools and artefacts for data governance, data management and data quality supporting trusted data sharing

Contents

Page

European foreword 3
Introduction 4
1 Scope 6
2 Normative references 6
3 Terms and definitions 6
4 Overview and goals 7
4.1 Overview on processes and use cases 7
4.1.1 General 7
4.1.2 Capability maturity levels 7
4.1.3 Use cases 8
4.1.4 Foundational standards 9
4.1.5 Data governance processes for trusted data sharing 10
4.1.6 Data management processes for trusted data sharing 10
4.1.7 Data product quality processes 11
4.2 Digital maturity 11
4.3 Organizational alignment 12
4.4 Data governance and data management in relation to data spaces 12
4.5 Essential capabilities for implementation artefacts 14
5 Data governance tools 15
5.1 General 15
5.2 Data space strategy process 15
5.3 Organizational structure process 18
5.4 Data space risk optimization process 20
5.5 Data space value optimization process 22
6 Data management tools 23
6.1 General 23
6.2 Data product management process 23
6.3 Metadata management process 25
6.4 Data sharing contract management process 26
7 Data product quality tools 27
