ISO/IEC 14598-6:2001-06 (E)

Software engineering - Product evaluation - Part 6: Documentation of evaluation modules

Contents

Page

1 Scope 1

2 Conformance 1

3 Normative references 1

4 Terms and definitions 2

5 The evaluation module concept 2

6 Format for documentation of an evaluation module 3
6.1 EM0 : Foreword and introduction 3
6.1.1 Foreword 3
6.1.2 Introduction 3
6.2 EM1 : Scope 3
6.2.1 Characteristics 3
6.2.2 Level of evaluation 3
6.2.3 Techniques 4
6.2.4 Applicability 4
6.3 EM2 : References 4
6.4 EM3 : Terms and definitions 4
6.5 EM4 : Inputs and metrics 4
6.5.1 Input for the evaluation 4
6.5.2 Data elements 5
6.5.3 Metrics and measures 5
6.6 EM5 : Interpretation of results 5
6.6.1 Mapping of measures 5
6.6.2 Reporting 5
6.7 EMA : Application procedure 5
6.7.1 Definition of Technical Terms Used 5
6.7.2 Resources Required 5
6.7.3 Evaluation instructions 6
6.7.4 Documentation 6

Annex A (informative) Development of evaluation modules 7

Annex B (informative) Example of an evaluation module - Fault density 8

Annex C (informative) Example of an evaluation module - Functionality 12

Annex D (informative) Example of an evaluation module - Usability and Quality in Use 25
