ISO/IEC 15504-4:2004-07 (E)

Information technology - Process assessment - Part 4: Guidance on use for process improvement and process capabili ty determination

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Introduction 1
4.1 Process improvement and process capability determination 1
4.2 PI and PCD sponsors and teams 2
4.3 Process, guidance and method 2
4.4 Process improvement - purpose and outcomes 2
4.5 Process capability determination -- purpose and outcomes 3
4.6 Process assessment output 3

5 Utilizing process assessment 4
5.1 General 4
5.2 Selecting Process Reference Model(s) 4
5.3 Setting target capability 4
5.4 Defining the assessment input 6
5.5 Evaluating process-related risk 7
5.5.1 Inferring process-related risk from assessment output 7
5.5.2 Analysing weaknesses 9

6 Process improvement 10
6.1 Overview 10
6.2 Steps of process improvement 10
6.2.1 Step 1 - Examine organization's business goals 10
6.2.2 Step 2 - Initiate process improvement cycle 11
6.2.3 Step 3 - Assess current capability 12
6.2.4 Step 4 - Develop action plan 12
6.2.5 Step 5 - Implement improvements 15
6.2.6 Step 6 - Confirm improvements 16
6.2.7 Step 7 - Sustain improvements 17
6.2.8 Step 8 - Monitor performance 17

7 Process capability determination 18
7.1 Overview 18
7.2 Steps of process capability determination 19
7.2.1 Step 1 - Initiate process capability determination 19
7.2.2 Step 2 - Set target capability 20
7.2.3 Step 3 - Assess current capability 20
7.2.4 Step 4 - Determine proposed capability 20
7.2.5 Step 5 - Verify proposed capability 21
7.2.6 Step 6 - Analyse process-related risk 21
7.2.7 Step 7 - Act on results 21
7.3 Comparability of assessment output analysis 21

Annex A (informative) Analysing process-related risk 23

A.1 Introduction 23
A.2 Probability 23
A.3 Consequence 24
A.4 Process-related risk 24
A.5 Determining which processes represent greatest risk 25
A.6 Analysis approach 25
A.7 Example risk analysis 25
A.7.1 F.1.3.3 System and Architectural Design 26
A.7.2 F.2.2 Configuration Management 27
A.7.3 F.3.1.4 Risk Management 27

Annex B (informative) Subcontractors and consortia 28

B.1 Overview 28
B.1.1 Combining uniquely deployed processes 28
B.1.2 Combining processes deployed by more than one organizational unit 29
B.2 Enterprise reference architectures 29

Annex C (informative) Process improvement and organizational culture 30

C.1 Introduction 30
C.2 Management responsibility and leadership 30
C.3 Values, attitudes and behaviour 30
C.4 Process improvement objectives and motivation 31
C.5 Communication and teamwork 31
C.6 Recognition 31
C.7 Education and training 31

Bibliography 33
