## Information technology - Security techniques - IT network security - Part 3: Securing communications between networks using security gateways

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Abbreviated terms .....	4
5	Security requirements .....	5
6	Techniques for security gateways .....	5
6.1	Packet filtering .....	5
6.2	Stateful packet inspection .....	6
6.3	Application proxy .....	6
6.4	Network Address Translation (NAT) .....	6
6.5	Content analyzing and filtering .....	7
7	Security gateway components .....	7
7.1	Switches .....	7
7.2	Routers .....	8
7.3	Application Level Gateway .....	8
7.4	Security Appliances .....	8
8	Security Gateway Architectures .....	8
8.1	Structured approach .....	9
8.1.1	Packet filter firewall architecture .....	9
8.1.2	Dual-homed gateway architecture .....	10
8.1.3	Screened host architecture .....	11
8.1.4	Screened subnet architecture .....	12
8.2	Staged approach .....	13
8.2.1	Single and multi-staged security gateway architecture .....	14
9	Guidelines for selection and configuration .....	16
9.1	Selection of a security gateway architecture and appropriate components .....	17
9.2	Hardware and software platform .....	17
9.3	Configuration .....	17
9.4	Security features and settings .....	18
9.5	Administration .....	19
9.6	Logging .....	19
9.7	Documentation .....	20
9.8	Audit .....	20
9.9	Training and education .....	20
9.10	Miscellaneous .....	20
Bibliography .....		22
