Information and documentation - Qualitative conditions and basic statistics for library buildings - Space, function and design

Contents	Page
Foreword	vi
Introduction	vii
1 Scope	1
2 Terms and definitions	1
3 Planning library buildings	13
3.1 First steps in planning	13
3.2 Factors affecting library space requirements	16
3.3 Special service areas	19
3.4 Joint facilities	27
4 Usable areas	28
4.1 General	28
4.2 Space for user places	29
4.3 Space for events and exhibitions	34
4.4 Space for lending	35
4.5 Space for reference and information	37
4.6 Space for other usage areas	38
4.7 Space for collections	40
4.8 Space for library staff	66
4.9 Other spaces for library management and technical services	69
5 Technical building issues	76
5.1 Storage conditions	76
5.2 Load assumption	81
5.3 Conveyor systems	85
5.4 Security and safety systems	88
5.5 Light and lighting	91
5.6 Acoustic conditions	98
5.7 Floor construction and covering	102
5.8 Wiring	110
5.9 Sign system	114
6 Outdoor space	116
6.1 General	116
6.2 Access	116
6.3 Open spaces	117
7 Barrier free construction	118
7.1 General	118
7.2 Measures for barrier free design	118
7.3 Sign system	119
7.4 Overview	119
8 Sustainable building	120
8.1 General	120
8.2 Energy efficiency	120
8.3 Conservation of natural resources	121

Annex A (informative) Reconstruction and reorganisation of old buildings	122
Annex B (informative) List of functional areas and rooms	125
Bibliography	129
Figures Figure 1 -- Access to shelving sections	51
Tables Table 1 -- Shelf depth recommended for types of media and types of shelving	42
Table 2 -- Shelf depth for special media furniture	42
Table 3 -- Recommended length of shelving ranges	43
Table 4 -- Shelf frame height and number of shelf boards on top of each other for books	44
Table 5 -- Number of shelf boards on top of each other for non-book media	45
Table 6 -- Shelf capacity for books (standing, spine-out)	46
Table 7 -- Shelf capacity for unbound periodicals and newspapers	47
Table 8 -- Required compartments for the yearly issues of one periodical or newspaper	47
Table 9 -- Shelf capacity for non-book media	48
Table 10 -- Shelf capacity of cabinets for non-book media	48
Table 11 -- Stack aisle width and axis centre distance for shelves of 0,25 m to 0,35 m depth in different functional areas	49
Table 12 -- Space needed for access to shelving sections	53
Table 13 -- Required space for books and bound periodicals with standard conditions	57
Table 14 -- Required space for one year of one unbound periodical title with standard conditions ...	57
Table 15 -- Required space for one newspaper title (issues of 1 month) with standard conditions ...	58
Table 16 -- Required space for printed music documents with standard conditions	58
Table 17 -- Required space for maps and plans (folded) with standard conditions	59
Table 18 -- Required space for maps and plans in cabinets for A0 maps with standard conditions ..	59
Table 19 -- Required space for files with standard conditions	60
Table 20 -- Required space for phonograph records with standard conditions	61
Table 21 -- Required space for CDs and CD-ROMs with standard conditions	62
Table 22 -- Required space for audio cassettes with standard conditions	63
Table 23 -- Required space for DVDs with standard conditions	64
Table 24 -- Required space for video cassettes with standard conditions	65
Table 25 -- Space requirements for staff	69
Table 26 -- Overview of live load (rounded)	85

Table 27 -- Fire extinguishing systems	91
Table 28 -- Recommended lighting levels for specified areas	92
Table 29 -- Advantages and disadvantages of the light sources most used in libraries	97
Table 30 -- Recommended acoustic comfort levels for functional areas	100
Table 31 -- Types of flooring	104
