

ISO/TR 18159:2015-08 (E)

Document management - Environmental and work place safety regulations affecting microfilm processors

| Contents | | Page |
|--------------------|--|-------------|
| Foreword | | v |
| Introduction | | vi |
| 1 | Scope | 1 |
| 2 | Terms and definitions | 1 |
| 3 | International standard industrial classification | 4 |
| 4 | Effluent pretreatment requirements | 4 |
| 5 | Stream standards | 5 |
| 6 | Disposal of photo processing effluents using septic tanks and leach fields | 5 |
| 7 | Trade effluents consents | 5 |
| 8 | Photographic processing effluent characteristics | 6 |
| 8.1 | General | 6 |
| 8.2 | Temperature | 9 |
| 8.3 | Oxygen demand | 9 |
| 8.3.1 | General | 9 |
| 8.3.2 | BOD5 | 9 |
| 8.3.3 | COD | 10 |
| 8.4 | Suspended solids | 10 |
| 8.5 | Chlorine demand | 10 |
| 8.6 | pH | 10 |
| 8.7 | Heavy metals | 10 |
| 8.7.1 | General | 10 |
| 8.7.2 | Silver | 11 |
| 8.7.3 | Chromium compound | 11 |
| 8.7.4 | Iron complexes | 11 |
| 8.7.5 | Zinc | 12 |
| 8.7.6 | Cadmium | 12 |
| 8.7.7 | Other heavy metals | 12 |
| 8.8 | Phenols | 12 |
| 8.9 | Cyano complexes | 12 |
| 8.10 | Thiocyanate | 13 |
| 8.11 | Hydroquinone | 13 |
| 8.12 | Ammonium | 13 |
| 8.13 | Phosphates and nitrates | 13 |
| 8.14 | Detergents, oils, and tars | 13 |
| 8.15 | Colour and odour | 13 |
| 8.16 | Flammable and explosive materials | 13 |
| 8.17 | Volatile organic compounds (VOC) | 14 |
| 9 | Effluent sampling | 14 |
| 9.1 | General | 14 |
| 9.2 | Sampling techniques | 15 |
| 9.2.1 | General | 15 |

| | | |
|---|---|----|
| 9.2.2 | Grab sampling | 15 |
| 9.2.3 | Composite sampling | 16 |
| 9.2.4 | Continuous sampling | 16 |
| 10 | Handling samples for analysis | 16 |
| 11 | Pollution prevention | 16 |
| 11.1 | General | 16 |
| 11.2 | Squeegees | 17 |
| 11.2.1 | General | 17 |
| 11.2.2 | Types of squeegees | 17 |
| 11.3 | Replenishment rates | 17 |
| 11.4 | Good housekeeping | 18 |
| 12 | Dilution (equalization) | 18 |
| 12.1 | General | 18 |
| 12.2 | Holding tank | 18 |
| 13 | Silver recovery | 19 |
| 13.1 | General | 19 |
| 13.2 | Regulatory compliance | 19 |
| 13.3 | Silver recovery techniques | 20 |
| 14 | Commercial disposal services | 20 |
| 15 | Current issues in environmental and work place safety regulations affecting microfilm processing laboratories | 20 |
| 16 | Hazardous waste resulting from photo processing | 21 |
| 17 | Container storage requirements and labelling | 22 |
| 18 | Emergency contingency plans and procedures | 22 |
| 19 | Land disposal criteria | 23 |
| 20 | Storm water regulations | 23 |
| 21 | Air pollution considerations | 23 |
| 22 | General guidelines for ventilating photographic processing areas | 24 |
| 22.1 | General | 24 |
| 22.2 | Ventilation guidelines | 24 |
| 23 | Regulation of photographic processing air emissions | 26 |
| Annex A (informative) Assistance from manufacturers | | 27 |
| Annex B (informative) Sample written Hazard Communication Programme in the United States of America(Provided by U.S. Department of Labour/OSHA) | | 28 |
| Annex C (informative) References, statutes, and regulations applicable to the United States of America | | 30 |
| Annex D (informative) General guidelines for ventilating photographic processing areas | | 44 |
| Annex E (informative) Environmental protection in France | | 46 |
| Annex F (informative) Environmental protection in the United Kingdom | | 48 |
| Bibliography | | 50 |
