## Information and documentation - Principles of identification

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Optimal attributes of identifiers and identifier systems .....	4
4.1	Uniqueness .....	4
4.2	Persistence .....	4
4.3	Granularity of the identifier to suit the needs of the sector .....	4
4.4	Stability of kernel metadata .....	5
4.5	No ambiguity within its own namespace .....	5
4.6	Access .....	5
4.7	Scope .....	6
4.8	Absence of semantics in identifier strings .....	6
4.9	Resolution .....	6
4.10	Timing of assignment .....	6
4.11	Resilience in the face of errors .....	6
4.12	Economic sustainability of the identifier system .....	7
4.13	Trustworthiness .....	7
Bibliography .....		8
