Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principles 3

5 ICMH system design 4
5.1 Classification scheme design 4
5.1.1 Classification criteria 4
5.1.2 Hierarchy 5
5.1.3 Classification scheme equivalence 6
5.1.4 Information asset life cycle 6
5.1.5 Default classifications 7
5.1.6 Information assets that are not marked 8
5.1.7 Descriptors and dependencies 8
5.2 Marking scheme design 9
5.2.1 Marking design criteria 9
5.2.2 Placement and style of marking 9
5.3 Handling scheme design 10
5.3.1 Handling design criteria 10
5.3.2 Information handling during creation and capture 10
5.3.3 Information re-use in other information assets 11
5.3.4 Editing and changes to an information asset 11
5.3.5 Information aggregation 11
5.3.6 Access to and handling of information 11
5.3.7 Information storage 12
5.3.8 Information replication and rendering 12
5.3.9 Information redaction 13
5.3.10 Information distribution, sharing and exchange 13
5.3.11 Information archiving and disposal 14
5.3.12 Information security 15
5.4 ICMH system evaluation 15
5.4.1 Evaluation programme 15
5.4.2 Monitoring and testing 15
5.4.3 Auditing and assurance 16
5.4.4 Measurement 16
5.4.5 Incident management and investigation 16
5.4.6 Reporting and lesson learning 16

6 ICMH system revision 16
6.1 Scheme revision 16
6.2 Change management 16
6.3 Progressive extension of ICMH scope 17
6.4 Progressive integration into the organization 17

Annex A (informative) Examples of ICMH schemes 18

Annex B (informative) Examples and guidance when applying the ICMH system to information assets in different formats and/or media 23
