ISO 16684-4:2024-01 (E)

Graphic technology - Extensible metadata platform (XMP) specification - Part 4: Use of XMP for semantic units

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Semantic unit 3
4.1 General 3
4.2 Types of semantic units 3

5 Defining and referencing semantic unit 5
5.1 Defining semantic units with target resources 5
5.2 Required Keywords 5
5.3 Simple valued XMP: selecting a target source resource 6
5.4 Array valued XMP: selecting a set of specific resources 6
5.4.1 General 6
5.4.2 Array values 6
5.4.3 Structure valued XMP properties 6
5.5 Identifying and dereferencing semantic unit 6

6 Serialization 6

Annex A (informative) Use case - Digitized books 8

Annex B (informative) Difference between XMP and the Web Annotation Model 12
