

ISO 16684-4:2024-01 (E)

Graphic technology - Extensible metadata platform (XMP) specification - Part 4: Use of XMP for semantic units

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Semantic unit	3
4.1	General	3
4.2	Types of semantic units	3
5	Defining and referencing semantic unit	5
5.1	Defining semantic units with target resources	5
5.2	Required Keywords	5
5.3	Simple valued XMP: selecting a target source resource	6
5.4	Array valued XMP: selecting a set of specific resources	6
5.4.1	General	6
5.4.2	Array values	6
5.4.3	Structure valued XMP properties	6
5.5	Identifying and dereferencing semantic unit	6
6	Serialization	6
Annex A (informative) Use case - Digitized books		8
Annex B (informative) Difference between XMP and the Web Annotation Model		12
Bibliography		13
