## Information and documentation - Document storage requirements for archive and library materials

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Sustainability -- Collections storage and preservation .....	2
4.1	General .....	2
4.2	Specifying storage spaces/conditions .....	3
5	Design planning .....	3
5.1	Identify design participants .....	3
5.2	Establish design priorities .....	4
5.3	Establish design specifications .....	4
5.4	Risk assessment .....	5
5.4.1	General .....	5
5.4.2	Hazards to collections .....	5
5.4.3	Site risk assessment .....	6
5.5	Location of repository within structure .....	7
5.6	Subgrade storage considerations .....	7
6	Building materials and assembly .....	8
6.1	Building fabric and environmental protection .....	8
6.1.1	General .....	8
6.1.2	Insulation and thermal stability (Thermal) .....	8
6.1.3	Airtightness .....	9
6.1.4	Hygroscopicity/permeability (Vapor) .....	9
6.1.5	Air pressurization and repositories .....	9
6.1.6	Modelling .....	10
6.2	Building materials and stability .....	10
6.2.1	General .....	10
6.2.2	Foundations and ground-bearing slabs .....	10
6.2.3	Exterior .....	11
6.2.4	Roof .....	11
6.2.5	Interior -- General .....	12
6.2.6	Interior finishes .....	12
6.2.7	Off gassing of construction materials .....	12
6.2.8	Building equilibration .....	13
6.2.9	Floors .....	13
6.3	Mechanical/HVAC systems .....	14
6.3.1	General .....	14
6.3.2	Equipment location .....	14
6.3.3	Design considerations .....	14
6.4	Security .....	17
6.4.1	General .....	17
6.4.2	Protection against intruders .....	17
6.4.3	Doors and circulation routes .....	17

6.4.4	Services .....	18
6.4.5	Windows .....	18
7	Furniture and lighting considerations .....	18
7.1	Furniture .....	18
7.1.1	General .....	18
7.1.2	Material requirements .....	18
7.1.3	Furniture configuration in the repository ambient conditions .....	18
7.1.4	Types of storage furniture .....	19
7.1.5	Mobile shelving systems .....	20
7.2	Lighting .....	20
7.2.1	General .....	20
7.2.2	Repository .....	21
7.2.3	Artificial light sources .....	21
7.2.4	Natural light sources .....	22
7.2.5	Collection-level mitigation strategies for reducing light exposure in existing repositories .....	22
8	Environmental monitoring .....	23
8.1	General .....	23
8.2	Methodology .....	23
8.2.1	General .....	23
8.2.2	Equipment .....	23
8.2.3	Deployment and sample rates .....	23
8.2.4	Data retention and analysis .....	24
8.2.5	Other data sources .....	24
9	Building-related hazards to collections .....	25
9.1	Pest considerations .....	25
9.2	Water considerations .....	25
9.3	Fire protection and prevention .....	25
9.3.1	General .....	25
9.3.2	Fire risk assessment .....	26
9.3.3	Structural fire protection .....	26
9.3.4	Minimizing fire hazard in an electrical system .....	27
9.3.5	Minimizing fire hazards in ventilation plant and equipment .....	28
9.3.6	Fire detection and firefighting .....	28
9.4	Seismic .....	29
9.5	Power/Emergency power .....	30
9.5.1	General .....	30
9.5.2	Emergency power .....	30
10	Facility records and maintenance .....	30
10.1	Facility records .....	30
10.2	Maintenance .....	30
	Annex A (informative) Automatic fire-fighting systems .....	32
	Annex B (informative) Recommended climatic conditions for the long-term storage of archive and library materials .....	34
	Annex C (informative) Environmental transitions for materials .....	37
	Bibliography .....	38
