

# ISO 11108:2025-05 (E)

## Information and documentation - Archival paper - Requirements for permanence and durability

---

| <b>Contents</b>   |  | <b>Page</b> |
|---|--|-------------|
| Foreword .....  |  | iv          |
| Introduction .....  |  | v           |
| 1   | <b>Scope</b> .....                       | 1           |
| 2   | <b>Normative references</b> .....        | 1           |
| 3   | <b>Terms and definitions</b> .....       | 1           |
| 4   | <b>Required characteristics</b> .....    | 2           |
| 4.1   | <b>General</b> .....                     | 2           |
| 4.2   | <b>Fibre composition</b> .....           | 2           |
| 4.3   | <b>Grammage</b> .....                    | 2           |
| 4.4   | <b>Tearing resistance</b> .....          | 2           |
| 4.5   | <b>Folding endurance</b> .....           | 3           |
| 4.6   | <b>pH value of aqueous extract</b> ..... | 3           |
| 4.7   | <b>Alkali reserve</b> .....              | 3           |
| 4.8   | <b>Resistance to oxidation</b> .....     | 3           |
| 5   | <b>Report</b> .....                      | 3           |
| <b>Annex A (normative) Relationship between archival paper and permanent paper as defined in ISO 9706</b> ....  |  | 4           |
| <b>Annex B (informative) Relationship between paper permanence (ISO 9706), archival paper permanence and durability (ISO 11108), and paper stability for general graphic applications (ISO 20494)</b> ..... |  | 5           |
| <b>Bibliography</b> .....   |  | 7           |
