Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Description of the test target 2
4.1 Characteristics of the base 2
4.2 Test target layout 2
4.3 Contrast 2
4.4 Identification 2

5 Microfilming of the test target 5
5.1 Exposure setting 5
5.2 Feed 5
5.3 Number of exposures 5

6 Test target evaluation procedure 5
6.1 Microscope 5
6.2 Mechanical performance 5
6.3 Optical quality (resolving power) 5
6.4 Reduction ratio 5
6.5 Legibility test 6

7 Results of the tests 6

Annex A (informative) Characteristics of rotary camera 8
