DIN EN 17106-4:2022-04 (E)

Road operation machinery - Safety - Part 4: Road service area maintenance machines - Requirements for grass and brush cutting machines

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 6

3 Terms and definitions 7

4 Safety requirements and/or protective/risk reduction measures 8
4.1 General 8
4.2 Additional requirements and/or measures for permanently mounted equipment, interchangeable equipment and trailed machines 8
4.3 Precautions against hazards caused by moving parts excluding cutting head 13
4.4 Interfaces 13
4.5 Unintended lowering of the equipment 13
4.6 Special protection of the cutting head against objects being ejected 14
4.7 Controls for machines using revolving/oscillating tools 14
4.8 Special protection measures to prevent unintentional contact with revolving tools in the operating area of grass-cutting machines 14

5 Verification of safety requirements or protective measures 18

6 Information for use 19
6.1 General 19
6.2 Warning signs 19
6.3 Instructions handbook 20

Annex A (normative) Stipulations on the design and testing of grass and/or brush-cutting machines 21

Annex B (informative) Thrown-object test reports - Machines 45

Annex C (informative) Drawings 50

Annex D (informative) List of significant hazards 57

Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive2006/42/EC aimed to be covered 62
