DIN EN 17106-2:2022-04 (E)

Road operation machinery - Safety - Part 2: Specific requirements for road surface cleaning machines

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Safety requirements and/or protective/risk reduction measures 7
4.1 General 7
4.2 Noise reduction at the source at the design stage 7
4.3 Noise measurement and declaration 8
4.4 Controls and displays 8
4.5 Guards 8
4.6 Access systems 9
4.7 Minimum space 9
4.8 Fire extinguisher 9
4.9 Raising, lowering and slewing mechanisms 9
4.10 Water flushing systems and their components 9
4.11 Water tank 10
4.12 Provisions for service and maintenance 10
4.13 Provisions for transport 10
4.14 Provisions for storage 10
4.15 Stability 11
4.16 Hand-held cleaning devices/wander hoses 11
4.17 Washing/flushing system 11
4.18 Self-propelled ride on road surface cleaning machines 11
4.19 Trailed machines 12

5 Verification of safety requirements or protective measures 13

6 Information for use - Operating instructions 15

Annex A (informative) Terminology 16

Annex B (informative) List of significant hazards 18

Annex C (normative) Noise test code (engineering method grade 2) 23

C.1 General 23
C.2 Scope 23
C.3 A-weighted emission sound pressure level at the operator's station 23
C.4 A-weighted sound power level determination 25
C.5 Operating conditions 28

Annex ZA (informative) Relationship between this European Standard and the essential requirements of Directive 2006/42/EC machinery, and amending Directive 95/16/EC (recast) [2006 L157] aimed to be covered 30
