Foreword ..... **iv**

Introduction ..... **v**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Minimum requirements **3**

4.1 Refuse collection vehicle (test item) 3

4.2 Load simulation 3

4.3 Test conditions 3

4.4 Test circuit 4

5 Implementation **4**

5.1 On the test track 4

5.2 Software calculation 5

5.2.1 General 5

5.2.2 Data for the driving cycle 5

5.2.3 Data for the working cycle 5

Annex A (normative) **Sample data collection sheet for measuring energy consumption** **9**

Annex B (informative) **Example of a switching diagram for load simulation components** **11**
