

E DIN EN 9300-300:2026-05 (E)

Erscheinungsdatum: 2026-04-17

Aerospace series - LOTAR - Long Term Archiving and Retrieval of digital technical product documentation such as 3D, CAD and PDM data - Part 300: Common concepts for Long term archiving and retrieval of Composite Structure; English version prEN 9300-300:2026

Contents	Page
European foreword	4
Introduction	5
1.1 In scope.....	5
1.2 Out of scope.....	6
2 Normative references.....	7
3 Terms and definitions	7
4 Abbreviations.....	25
5 Applicability.....	25
6 Business specification scenarios for long term archiving.....	26
6.1 Introduction.....	26
6.2 Dependency of CAD essential information use cases.....	27
6.3 Description of use cases for retrieval of 3D Composite design	27
7 Fundamentals, concepts, and essential information for Long Term Archiving of Composite Structure	28
7.1 General.....	28
7.2 Essential information for definition composite part	28
7.2.1 General.....	28
7.2.2 Essential information for flat patterns	29
7.3 Essential information required for stiffened laminate dataset	30
7.4 Essential information required for core stiffened (sandwich) structure dataset	30
7.5 Essential information required for core detail dataset.....	30
7.6 Essential information required for composite LLAI	31
7.6.1 General.....	31
7.6.2 Information for overlap splice LLAI.....	31
7.6.3 Essential information for butt splice LLAI.....	31
7.6.4 Essential information for no splice LLAI	31
7.6.5 Essential information for fibre orientation angle tolerance LLAI.....	32
7.6.6 Essential information for porosity allowance LLAI.....	32
7.6.7 Essential information for ply drop-off stay out LLAI	32
7.6.8 Essential information for surface preparation LLAI.....	32
7.6.9 Essential information for potting LLAI	33
7.6.10 Essential information for darting LLAI	33
7.6.11 Essential information for perforation LLAI.....	33
7.6.12 Essential information for ply wrinkle allowance LLAI.....	34
7.6.13 Essential information for stitching LLAI.....	34
7.6.14 Essential information for edge sealing LLAI	35
7.6.15 Essential information for core sample LLAI.....	35
7.6.16 Essential information for user defined LLAI.....	35
7.6.17 36	
7.6.18 Essential information for Edge of Part LLAI.....	36
7.6.19 Essential information for placement strategy LLAI.....	36
7.7 Reference dataset elements	37
8 Information Model for Long Term Archiving	37
Annex A (informative) Advanced Composite Structure Use Case Discussion.....	38
Bibliography	40
