ISO 10794:2011-08 (E)

Space systems - Programme management - Material, mechanical parts and processes

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Abbreviated terms 2

5 General requirements 4
5.1 Materials, mechanical parts and processes programme management 4
5.1.1 Materials, mechanical parts and processes activity diagram 4
5.1.2 Product assurance plan 4
5.1.3 Management 4
5.1.4 Customer reviews 4
5.2 Management and consolidation of the activities 7
5.2.1 Relationship 7
5.2.2 Establishing and processing of lists 7
5.2.3 Management of the lists 8
5.2.4 Supplier role and responsibilities 8
5.3 Technical constraints 9
5.4 Cleanliness and contamination control 9
5.5 Safety hazardous parts and materials 9
5.6 Optical, mechanical or electrical GSE hardware 9

6 Material control 10
6.1 Technical criteria for selection of materials 10
6.2 Selection 11
6.3 Declared materials list content 12
6.4 Criticality analysis 12
6.5 Evaluation and validation phases 13
6.5.1 General 13
6.5.2 Evaluation phase 13
6.5.3 Validation phase 13
6.5.4 Approval phase 13
6.5.5 Deviation request 14
6.6 Procurement of materials 14
6.6.1 Procurement specifications 14
6.6.2 Incoming inspection procedure 14
6.7 Use of materials 14
6.7.1 Validation status of materials 14
6.7.2 Traceability of materials 14
6.7.3 Packaging, storage, removal from storage 14
6.7.4 Limited-life materials before implementation 15
6.7.5 Limited-life materials after implementation 15
6.7.6 Materials' non-conformances and alerts 15
6.7.7 Health and safety 15

7 Mechanical parts control ... 15
7.1 Verification of mechanical parts ... 15
7.2 Use of mechanical parts ... 15
7.3 Declared mechanical parts list content ... 15
7.4 Criticality analysis ... 16
7.5 Evaluation and qualification phases ... 16
7.5.1 General ... 16
7.5.2 Evaluation phase ... 17
7.5.3 Qualification phase ... 17
7.5.4 Approval phase ... 17
7.5.5 Deviation request ... 17
7.6 Procurement of mechanical parts ... 17
7.6.1 General ... 17
7.6.2 Procurement specification ... 18
7.6.3 Source inspection ... 18
7.6.4 Incoming inspection procedure ... 18
7.7 Use of mechanical parts ... 18
7.7.1 Qualification status of parts ... 18
7.7.2 Traceability of parts ... 18
7.7.3 Packaging, storage, removal from storage ... 18
7.7.4 Limited-life parts or parts subject to wearout ... 18
7.7.5 Parts non-conformance and alerts ... 18

8 Process control ... 19
8.1 Specifications or procedures ... 19
8.2 Associated materials and mechanical parts ... 19
8.3 Selection ... 19
8.4 Declared processes list content ... 19
8.5 Criticality analysis ... 20
8.6 Evaluation and verification phase ... 20
8.6.1 General ... 20
8.6.2 Evaluation phase ... 20
8.6.3 Verification phase ... 21
8.6.4 Approval phase ... 21
8.6.5 Deviation request ... 21
8.7 Use of a process ... 21
8.7.1 Verification status of a process ... 21
8.7.2 Reverification of a process ... 21
8.7.3 Implementation of a process ... 22
8.7.4 Traceability of processes ... 22
8.7.5 Process non-conformances and alerts ... 22
8.7.6 Mandatory inspection points (MIPs) ... 22
8.7.7 Packaging, storage, removal from storage ... 22

Annex A (informative) Relationship between materials, mechanical parts, processes activities and programme phase ... 23

Annex B (informative) Declared materials list -- Document requirements definition ... 25

Annex C (informative) Declared mechanical parts list -- Document requirements definition ... 33

Annex D (informative) Declared processes list -- Document requirements definition ... 40

Annex E (informative) Request for approval (RFA) -- Document requirements definition ... 46

Bibliography ... 50
