ISO 12584:2013-11 (E)

Aerospace - Hydraulic fluid components - Expression of particulate contamination levels

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Principle 3

5 Characteristics of the component 3
5.1 General 3
5.2 Determination of the wetted volume 3
5.3 Particulate contamination extraction 4

6 Expression of results 4
6.1 Required preliminary data 4
6.2 Presentation of the results 4
6.3 Example 6

Annex A (informative) Relating wetted volume to wetted surface area of components 7

Annex B (informative) Typical component particulate contamination analysis report 8
