

ISO 12584:2013-11 (E)

Aerospace - Hydraulic fluid components - Expression of particulate contamination levels

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Principle	3
5	Characteristics of the component	3
5.1	General	3
5.2	Determination of the wetted volume	3
5.3	Particulate contamination extraction	4
6	Expression of results	4
6.1	Required preliminary data	4
6.2	Presentation of the results	4
6.3	Example	6
Annex A (informative) Relating wetted volume to wetted surface area of components		7
Annex B (informative) Typical component particulate contamination analysis report		8
Bibliography		10
