# DIN EN 16603-10-06:2014-11 (E)

## Space engineering - Part 10-06: Technical requirements specification

## Contents

Page

**Foreword** ..... **4**

**Introduction** ..... **5**

**1 Scope** ..... **6**

**2 Normative references** ..... **7**

**3 Terms, definitions and abbreviated terms** ..... **8**

3.1 Terms from other standards ..... 8

3.2 Terms specific to the present standard ..... 8

3.3 Abbreviated terms ..... 10

**4 Technical requirements specification purpose and description** ..... **11**

4.1 Technical requirements specification purpose and description ..... 11

4.2 TS content ..... 11

**5 Process for establishing a technical requirements specification** ..... **13**

5.1 General ..... 13

5.2 Process for establishing a technical requirements specification ..... 13

**6 Technical requirements types** ..... **16**

6.1 General ..... 16

6.2 Identification of types of technical requirements ..... 16

6.2.1 Introduction ..... 16

6.2.2 Functional requirements ..... 16

6.2.3 Mission requirements ..... 17

6.2.4 Interface requirements ..... 17

6.2.5 Environmental requirements ..... 17

6.2.6 Operational requirements ..... 17

6.2.7 Human factor requirements ..... 17

6.2.8 (Integrated) logistics support requirements ..... 18

6.2.9 Physical requirements ..... 18

6.2.10 Product assurance (PA) induced requirements ..... 19

6.2.11 Configuration requirements ..... 19

6.2.12 Design requirements ..... 19
6.2.13 Verification requirements ..... 19

**7 Overall Requirements for technical requirements specifications ..... 20**
7.1 Overview ..... 20
7.2 Requirements for technical requirements specifications ..... 20
7.2.1 General ..... 20
7.2.2 Responsibility ..... 20
7.2.3 Technical requirements organisation ..... 20
7.2.4 Technical reference ..... 21
7.2.5 Configuration management ..... 21
7.2.6 Format ..... 21
7.2.7 Supplementary information ..... 21
7.2.8 Restrictions ..... 21

**8 Requirements for formulating technical requirements ..... 22**
8.1 General ..... 22
8.2 Requirements for the characteristics of a technical requirement of a TS ..... 22
8.2.1 Performance ..... 22
8.2.2 Justification ..... 22
8.2.3 Configuration management and traceability ..... 23
8.2.4 Ambiguity ..... 23
8.2.5 Uniqueness ..... 23
8.2.6 Identifiability ..... 23
8.2.7 Singularity ..... 23
8.2.8 Completeness ..... 24
8.2.9 Verification ..... 24
8.2.10 Tolerance ..... 24
8.3 Recommendations for the wording of requirements ..... 24
8.3.1 General format ..... 24
8.3.2 Required verbal form ..... 24
8.3.3 Format restrictions ..... 25

**Annex A** (normative) **Technical requirements specification (TS) - DRD ..... 26**

**Bibliography ..... 29**
