## Space systems - Acoustic testing

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| Foreword .....  |   | iv          |
| 1               | Scope .....                               | 1           |
| 2               | Normative references .....                | 1           |
| 3               | Terms and definitions .....               | 1           |
| 4               | Abbreviated terms .....                   | 3           |
| 5               | Test purpose .....                        | 4           |
| 6               | General .....                             | 4           |
| 7               | Test system .....                         | 4           |
| 7.1             | Test facility .....                       | 4           |
| 7.2             | Equipment requirement .....               | 5           |
| 7.2.1           | Chamber system .....                      | 5           |
| 7.2.2           | Sound source system .....                 | 6           |
| 7.2.3           | Control system .....                      | 6           |
| 7.2.4           | Measurement system .....                  | 6           |
| 8               | Test technical requirements .....         | 6           |
| 8.1             | Laboratory environment .....              | 6           |
| 8.2             | Test condition and tolerance .....        | 7           |
| 8.2.1           | Test condition .....                      | 7           |
| 8.2.2           | Fill effect .....                         | 7           |
| 8.2.3           | Test level tolerances .....               | 8           |
| 8.3             | Specimen configuration requirements ..... | 8           |
| 8.4             | Specimen installation requirements .....  | 8           |
| 8.5             | Control requirements .....                | 8           |
| 8.6             | Measurement requirements .....            | 10          |
| 8.6.1           | Structure response measurement .....      | 10          |
| 8.6.2           | Sound measurement .....                   | 10          |
| 8.7             | Safety .....                              | 10          |
| 9               | Test procedure .....                      | 10          |
| 9.1             | Test flow .....                           | 10          |
| 9.2             | Test procedure .....                      | 11          |
| 9.2.1           | Before the test .....                     | 11          |
| 9.2.2           | Test implementation .....                 | 12          |
| 9.2.3           | After the test .....                      | 12          |
| 10              | Test interruption and handling .....      | 12          |
| 10.1            | Test interruption .....                   | 12          |
| 10.2            | Interruption handling .....               | 13          |
| 11              | Test data and result evaluation .....     | 13          |
| 11.1            | Test data .....                           | 13          |
| 11.2            | Result evaluation .....                   | 13          |
| 12              | Test documents .....                      | 13          |
