ISO 14622:2000-12 (E)

Space systems - Structural design - Loads and induced environment

Contents

Page

Foreword iv

1 Scope 1

2 Terms and definitions 1

3 Determination of loads and the induced environment 5
3.1 General input data 5
3.2 Determination of loading conditions 6
3.3 Safety factors 8
3.4 Cases of design load 9
3.5 Calculated safety margins 9
