

ISO 14622:2000-12 (E)

Space systems - Structural design - Loads and induced environment

Contents		Page
Foreword		iv
1	Scope	1
2	Terms and definitions	1
3	Determination of loads and the induced environment	5
3.1	General input data	5
3.2	Determination of loading conditions	6
3.3	Safety factors	8
3.4	Cases of design load	9
3.5	Calculated safety margins	9
