

DIN EN 14607-6:2006-12 (E)

Space engineering - Mechanical - Part 6: Pyrotechnics; English version EN 14607-6:2004

Inhalt	Seite
Foreword	4
1 Scope	5
2 Normative references	5
3 Terms, definitions and abbreviated terms	6
3.1 Terms and definitions	6
3.2 Abbreviated terms	7
4 Requirements	10
4.1 General	10
4.1.1 Overview	10
4.1.2 Application	10
4.1.3 Stability of properties	10
4.1.4 Subsystem performance	10
4.1.5 Response time	10
4.2 Mission	10
4.3 Functionality	11
4.4 Constraints	11
4.4.1 Survival and operational conditions	11
4.4.2 Actuators and components	11
4.4.3 Mechanical constraints	12
4.4.4 Electrical constraints	12
4.5 Interface	13
4.5.1 Functional	13
4.5.2 Internal	13
4.5.3 External	13
4.6 Design	13
4.6.1 Prevention of unintentional function	13
4.6.2 Protection	14
4.6.3 Monitoring	14
4.6.4 Avoidance of single-point failures	14
4.6.5 Mechanical design	14
4.6.6 Electrical design	15
4.6.7 Thermal design	17
4.6.8 Specific elements	17
4.7 Verification	21
4.7.1 General	21
4.7.2 Methods	21
4.7.3 Essential confirmation	21
4.7.4 Routing tests	21
4.7.5 End-to-end tests	21
4.7.6 Operators	21
4.7.7 Subsystem testing	21
4.8 Production and manufacturing	21
4.8.1 Elements	21
4.8.2 Transport and handling	22
4.8.3 Facilities	22
4.8.4 Electrostatic charge	22
4.8.5 Pyrotechnics installation, test and replacement	22
4.8.6 Special-purpose aids	22
4.8.7 Pyrotechnics hardware tracking	23

4.9	In-service	23
4.9.1	Launch facilities.....	23
4.9.2	Information feedback	23
4.9.3	Launch site procedures	23
4.9.4	Commands	24
4.9.5	Monitoring	24
4.9.6	Recovery.....	24
4.9.7	Disposal of flight equipment	24
4.9.8	Final activities	24
4.10	Data exchange.....	24
4.10.1	General.....	24
4.10.2	Assembly, integration and verification records	25
4.11	Product assurance	25
4.11.1	General.....	25
4.11.2	Design and verification	25
4.11.3	Dependability	25
4.11.4	Safety	26
4.11.5	Procurement.....	26
4.11.6	Assembly, integration and testing.....	27
4.11.7	Qualification	27
4.11.8	Acceptance.....	29
4.11.9	Post acceptance activities.....	30
4.11.10	Control of pyrotechnics hardware	31
4.12	Deliverables.....	31
4.12.1	General.....	31
4.12.2	Documentation.....	31
4.13	Use of the standard to define project requirements	32
	Bibliography	33
