Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Classification 2

4 Requirements 2
4.1 Qualification 2
4.2 Materials 2
4.3 Construction 3
4.4 Inner tube 4
4.5 Hose 5
4.6 Screw threads 7
4.7 Part numbering of interchangeable parts 7
4.8 Identification of products 7
4.9 Workmanship 8
4.10 Hose assembly -- Test and performance requirements 8

5 Quality assurance 13
5.1 Responsibility for inspection 13
5.2 Classification of inspections 13
5.3 Qualification inspections 13
5.4 Quality conformance inspections 15
5.5 Test conditions 17
5.6 Inspection methods 18

6 Preparation for delivery 18
6.1 Storage and packaging 18
6.2 Marking 18

7 Ordering data 18

Annex B (normative) Equivalent national qualification procedure and fire resistance specification 21

Annex C (informative) Equivalent materials 22
