

ISO 24497-3:2007-11 (E)

Non-destructive testing - Metal magnetic memory - Part 3: Inspection of welded joints

Contents		Page
Foreword		iv
1	Scope	1
2	Basic principles	1
3	Inspection conditions	2
4	Inspection devices	2
5	Inspection planning	3
6	Inspection procedure	4
7	Processing of results	5
Annex A (normative) Inspection report		7
Annex B (informative) Example of stress concentration zones defined by a device with digital indication of the magnetic field intensity		9
Annex C (informative) An example of stress concentration zones defined by the device having recorder and scanner		11
