Remote handling devices for radioactive materials - Part 1: General requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	2
3	Terms and definitions	2
4	Application of multipurpose remote handling devices	3
4.1	General	3
4.2	Mechanical master-slave manipulators	3
4.3	Electrical master-slave manipulators	3
4.4	Power manipulators	4
4.5	Remote handling tongs	4
5	Kinematic systems for multipurpose remote handling devices	4
6	General requirements concerning the different categories of multipurpose remote handling devices	5
6.1	Mechanical master-slave manipulators	5
6.2	Electrical master-slave manipulators	8
6.3	Power manipulators	10
6.4	Remote handling tongs	11
7	Principal criteria for the selection of multipurpose remote handling devices	16
7.1	General	16
7.2	Load capacities of remote handling devices	17
7.3	Dexterity of remote handling devices	18
7.4	Reliability of remote handling devices	19
8	Other criteria	19
8.1	General	19
8.2	Working zone	20
8.3	Peripheral and auxiliary provisions	20
9	Design summary	21
Annex A (normative) Kinematic systems for remote handling devices		22
Bibliography		26
