Foreword .....		3
1	Scope .....	4
2	Principle .....	4
3	Spectrometry .....	4
4	Apparatus .....	4
5	Reagents .....	5
6	Sampling and preparation of test samples .....	5
7	Calibration .....	5
8	Procedure .....	6
9	Calculation .....	8
10	Expression of results .....	8
11	Precision .....	8
12	Test report .....	9
Annex A (informative) Results of inter-laboratory study .....		10
Annex B (informative) Wavelength and working range .....		14
Annex C (informative) Possible interferences and their elimination .....		16
Annex D (informative) Information regarding the evaluation of the uncertainty of the mean value ....		19
Annex E (informative) Commercial certified reference materials .....		20
Bibliography .....		21
