Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Principle 1

4 Reagents and materials 2
4.1 Water 2
4.2 Acids and other reagents 2
4.3 Standards 3
4.4 Matrix material 3
4.5 Calibration standards for instrumental analysis 3
4.6 Quality control standards for instrumental analysis 3
4.7 Quality control standards for the method control 3
4.8 Recovery control standard 3
4.9 Internal standard 4

5 Apparatus 4
5.1 Mass spectrometer 4
5.2 Radioactivity containment 4
5.3 Dissolution containers and process apparatus 5

6 Procedure 5
6.1 Interferences 5
6.2 Test portion 7
6.3 Preparation of test portion 7
6.4 Instrumental analysis 8
6.5 Instrument and method calibration 9

7 Calculation 11

8 Precision 11

9 Quality assurance and control 11
9.1 Instrument performance 11
9.2 Method performance 12

10 Test report 12

Annex A (informative) Table of elements measurable by ICP-MS 13

Annex B (informative) Specific examples of dissolution and extraction procedures 15

Annex C (informative) General information 19

Bibliography 21
