DIN EN 14869-2:2011-07 (E)

Structural adhesives - Determination of shear behaviour of structural bonds - Part 2: Thick adherends shear test (IS O 11003-2:2001, modified)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principle 4

5 Apparatus 6

6 Specimen 6
6.1 Specimen dimensions and configurations 6
6.2 Adherends 7
6.3 Preparation of surfaces before bonding 7

7 Test specimen 9
7.1 Preparation 9
7.1.1 Specimens with flat-ended adherends 9
7.1.2 Specimens with stepped adherends 10
7.2 Number of specimens 10

8 Procedure 13

9 Calculations 15
9.1 Symbols used 15
9.2 Average shear stress in the adhesive 15
9.3 Shear strain in the adhesive 15
9.4 Stress strain curve 17
9.5 Shear modulus of the adhesive 18

10 Precision 18

11 Test report 18

Annex A (informative) Suitable extensometer design 20
