Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Methodology for criticality safety evaluations considering burnup of the fuel 3

5 Implementation of criticality safety evaluations considering burnup of the fuel 6

Annex A (informative) Validation of the depletion codes against post-irradiation examination data 7

Annex B (informative) Operational implementation of a burnup credit application 8
