

ISO 27468:2011-07 (E)

Nuclear criticality safety - Evaluation of systems containing PWR UOX fuels - Bounding burnup credit approach

| Contents | | Page |
|--|---|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Normative references | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Methodology for criticality safety evaluations considering burnup of the fuel | 3 |
| 5 | Implementation of criticality safety evaluations considering burnup of the fuel | 6 |
| Annex A (informative) Validation of the depletion codes against post-irradiation examination data | | 7 |
| Annex B (informative) Operational implementation of a burnup credit application | | 8 |
| Bibliography | | 9 |
