## Nuclear criticality safety - Evaluation of systems containing PWR UOX fuels - Bounding burnup credit approach

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Methodology for criticality safety evaluations considering burnup of the fuel .....	3
5	Implementation of criticality safety evaluations considering burnup of the fuel .....	6
Annex A (informative) Validation of the depletion codes against post-irradiation examination data ....		7
Annex B (informative) Operational implementation of a burnup credit application .....		8
Bibliography .....		9
