ISO 14932:2012-01 (E)

Rubber compounding ingredients - Organic vulcanizing agents - Determination of organic peroxide content

Contents

Page

Foreword iv

1 Scope 1
1.1 Titration method A for group a) peroxyketals 1
1.2 Titration method B for group b) diacyl peroxides 1
1.3 Titration method C for group c) diaralkyl and alkyl-aralkyl peroxides 1
1.4 Capillary gas-chromatography for dialkyl peroxides 1

2 Normative references 1

3 Terms and definitions 2

4 Titration method A 2
4.1 Purpose 2
4.2 Principle 2
4.3 General procedure 3
4.4 Expression of results 3

5 Titration method B 4
5.1 Purpose 4
5.2 Principle 4
5.3 General procedure 5
5.4 Expression of results 5

6 Titration method C 6
6.1 Purpose 6
6.2 Principle 6
6.3 Reagents 6
6.4 Apparatus 7
6.5 Sample pre-treatment 7
6.6 Procedure 7
6.7 Expression of results 8

7 Determination of the assay of 2,5-dimethyl-2,5-di(tert-butylperoxy)hexane 9
7.1 Purpose 9
7.2 Principle 9
7.3 Reagents 9
7.4 Apparatus 9
7.5 Conditions 9
7.6 Procedure 10
7.7 Expression of results 11

8 Precision 11

9 Test report 11

Annex A (informative) Method to determine the content of peroxyketal 12

Annex B (normative) Method to determine the content of tert-butyl hydroperoxide 16

Annex C (informative) Method to determine the content of diacyl peroxides 20

Annex D (normative) Sample preparation for the determination of peroxide in peroxide masterbatches .....

Annex E (normative) Sample preparation for the determination of alkyl-aralkyl peroxide on polymers.26 Annex F (informative) Precision 28
