ISO 9226:2012-02 (E)

Corrosion of metals and alloys - Corrosivity of atmospheres - Determination of corrosion rate of standard spe cimens for the evaluation of corrosivity

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Principle 1

4 Standard specimens 2

5 Exposure of standard specimens 2

6 Expression of results 2

Annex A (informative) Chemical cleaning procedures for removal of corrosion products 4

Bibliography 5
