# DIN EN ISO 1927-6:2013-04 (E)

## Monolithic (unshaped) refractory products - Part 6: Measurement of physical properties (ISO 1927-6:2012)

## Contents

Page

Foreword ... 3

1 Scope ... 4

2 Normative references ... 4

3 Determination of geometric bulk density ... 4
3.1 Principle ... 4
3.2 Test pieces ... 5
3.3 Apparatus ... 5
3.4 Procedure ... 5
3.5 Calculation and expression of test results ... 6

4 Determination of density and porosity ... 6
4.1 Principle ... 6
4.2 Test pieces ... 6
4.3 Procedure ... 6
4.4 Calculation ... 6

5 Determination of cold modulus of rupture ... 6
5.1 Principle ... 6
5.2 Test pieces ... 7
5.3 Apparatus and procedure ... 7
5.4 Test results ... 7

6 Determination of cold crushing strength ... 7
6.1 Principle ... 7
6.2 Test pieces ... 7
6.3 Apparatus ... 8
6.4 Procedure ... 8
6.5 Calculation and expression of results ... 10

7 Determination of permanent linear change ... 10
7.1 Principle ... 10
7.2 Apparatus ... 11
7.3 Procedure ... 11
7.4 Calculation ... 11

8 Determination of modulus of rupture at elevated temperatures ... 12
8.1 Principle ... 12
8.2 Apparatus and procedure ... 12
8.3 Calculation and expression of results ... 12

9 Determination of refractoriness under load and creep in compression ... 12
9.1 Principle ... 12
9.2 Test pieces ... 12
9.3 Procedure ... 12
9.4 Calculation and expression of test results ... 13

10 Test report ... 13

Bibliography ... 14
