DIN EN 14066:2013-06 (E)

Natural stone test methods - Determination of resistance to ageing by thermal shock

Contents

Page

Foreword 3

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Symbols and abbreviations 5

5 Principle 6

6 Apparatus 6

7 Preparation of specimens 6
7.1 Sampling 6
7.2 Dimensions of the test specimens 6
7.3 Putting reference marks on the specimens 6
7.4 Drying the specimens 7

8 Test procedure 7
8.1 Control measurements before cycling 7
8.2 Description of the cycles 7
8.3 Control measurements after cycling 7

9 Expression of results 7
9.1 Visual appearance 7
9.2 Modulus of elasticity 7
9.3 Open porosity 8
9.4 Ultrasound pulse velocity 8
9.5 Flexural strength 8

10 Test report 8
