## Corrosion of metals and alloys - Corrosion tests in artificial atmospheres - Guidelines for selection of accelerated corrosion test for product qualification

---

| <b>Contents</b>   |  | <b>Page</b> |
|---|--|-------------|
| Foreword .....  |  | iv          |
| Introduction .....  |  | v           |
| 1   | Scope .....  | 1           |
| 2   | Normative references .....   | 1           |
| 3   | Categories and characteristics of accelerated corrosion tests .....                        | 2           |
| 4   | Recommended fields of application for different kinds of tests and their suitability ..... | 4           |
| 5   | Corrosivity of tests and relative corrosion rates of standard metals .....                 | 6           |
| 6   | Requirements for test equipment and reproducibility of test results .....                  | 8           |
| 7   | Recommended procedures for product qualification .....                                     | 8           |
| Annex A (informative) Characteristics of standardized accelerated atmospheric corrosion tests .....           |  | 10          |
| Annex B (informative) Initial risk analysis of potential failure modes for products or functional units ..... |  | 16          |
| Bibliography .....  |  | 18          |
