

ISO/TR 16335:2013-09 (E)

Corrosion of metals and alloys - Corrosion tests in artificial atmospheres - Guidelines for selection of accelerated corrosion test for product qualification

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Categories and characteristics of accelerated corrosion tests		2
4 Recommended fields of application for different kinds of tests and their suitability		4
5 Corrosivity of tests and relative corrosion rates of standard metals		6
6 Requirements for test equipment and reproducibility of test results		8
7 Recommended procedures for product qualification		8
Annex A (informative) Characteristics of standardized accelerated atmospheric corrosion tests		10
Annex B (informative) Initial risk analysis of potential failure modes for products or functional units		16
Bibliography		18
