

# DIN 51130:2014-02 (E)

## Testing of floor coverings - Determination of the anti-slip property - Workrooms and fields of activities with slip danger - Walking method - Ramp test

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
1	Scope .....	4
2	Normative references .....	4
3	Terms and definitions .....	4
4	Principle .....	5
4.1	Slip resistance .....	5
4.2	Displacement space .....	5
5	Testing of slip resistance .....	5
5.1	Apparatus and test equipment .....	5
5.1.1	Testing footwear .....	5
5.1.2	Test apparatus with safety equipment .....	5
5.1.3	Lubricant .....	6
5.1.4	Flooring test piece .....	6
5.2	Calibration (selection and training of the testers) .....	7
5.3	Procedure .....	8
5.4	Evaluation .....	8
5.5	Classification .....	9
6	Measurement of the displacement space .....	9
6.1	General .....	9
6.2	Test apparatus .....	9
6.3	Test specimen .....	9
6.4	Determination of paste density .....	9
6.5	Procedure .....	10
6.6	Evaluation and classification .....	10
7	Test report .....	10
Annex A (informative)	Testing process .....	11
A.1	Calibration .....	11
A.2	Procedure .....	11
A.3	Evaluation .....	11
A.4	Classification .....	11
Annex B (informative)	Outsoles of the testing footwear .....	12
