

ISO/TS 12901-2:2014-01 (E)

Nanotechnologies - Occupational risk management applied to engineered nanomaterials - Part 2: Use of the control banding approach

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols and abbreviated terms	4
5	General framework for control banding applied to NOAA	4
5.1	General	4
5.2	Information gathering and data recording	5
5.3	Hazard banding	6
5.4	Exposure banding	6
5.5	Control banding	6
5.6	Review and data recording	7
6	Information gathering	7
6.1	NOAA characterization	7
6.2	Exposure characterization	8
6.3	Characterization of control measures	9
7	Control banding implementation	10
7.1	Preliminary remarks	10
7.2	Hazard band setting	10
7.3	Exposure band setting	16
7.4	Control band setting and control strategies	20
7.5	Evaluation of controls	21
7.6	Retroactive approach -- Risk banding	22
8	Performance, review and continual improvement	24
8.1	General	24
8.2	Objectives and performance	24
8.3	Data recording	24
8.4	Management review	25
Annex A (informative) Exposure algorithm in the Stoffenmanager risk banding approach		26
Annex B (informative) Health hazard class according to GHS		29
Bibliography		30
