

# DIN EN 16711-1:2016-02 (E)

## Textiles - Determination of metal content - Part 1: Determination of metals using microwave digestion

---

<b>Contents</b>		<b>Page</b>
European foreword .....		3
1	Scope .....	4
2	Normative references .....	4
3	Principle .....	4
4	Apparatus .....	4
5	Reagents .....	5
6	Test specimen sampling .....	5
6.1	Natural and man-made textiles .....	5
6.2	Garment components with painted and other similar surface coatings .....	5
6.3	Metallic products .....	5
6.4	Non-metal products .....	6
6.4.1	General .....	6
6.4.2	Ceramics, glass and crystal and other siliceous materials .....	6
6.4.3	Plastics, polymers ( includes prints and coatings other than 6.2) and other non- siliceous materials .....	6
7	Procedure .....	6
7.1	Digestion of natural and man-made textiles, and coated fabrics .....	6
7.2	Digestion of paint and other similar surface coatings .....	6
7.3	Digestion of metallic products .....	7
7.4	Digestion of non-metal products .....	7
7.4.1	Ceramics, glass and crystal and other siliceous materials .....	7
7.4.2	Plastics, polymers and other non-siliceous materials .....	8
7.5	Determination of metals .....	8
7.6	Reporting of results .....	8
8	Reliability of the method .....	9
9	Test report .....	9
Annex A (informative) Laboratory microwave procedure .....		10
A.1	Cleaning of polytetrafluoroethylene glassware and vessels .....	10
A.2	Sample preparation (digestion) .....	10
Annex B (informative) Procedure characteristics .....		12
B.1	Trueness complying with ISO 5725-4 .....	12
B.2	System precision .....	13
B.3	Limit of detection and limit of quantification .....	13
Bibliography .....		14
