

ISO 8312:2015-09 (E)

Rubber compounding ingredients - Stearic acid - Definition and test methods

Contents		Page
Foreword		iv
1 Scope		1
2 Normative references		1
3 Terms and definitions		2
4 Sampling		2
5 Physical and chemical properties		2
6 Test report		2
Annex A (normative) Determination of ash at 550 °C ± 25 °C		4
Annex B (normative) Determination of copper content -- Atomic absorption spectrometric method ...		6
Annex C (normative) Determination of manganese content -- Atomic absorption spectrometric method		8
Annex D (normative) Determination of iron content -- Atomic absorption spectrometric method		10
Annex E (normative) Determination of nickel content -- Atomic absorption spectrometric method ...		12
Annex F (normative) Determination of mineral acidity -- Titrimetric method		14
Annex G (normative) Determination of copper content -- Molecular absorption spectrometric method		16
Annex H (normative) Determination of manganese content -- Molecular absorption spectrometric method		17
Annex J (normative) Determination of iron content -- Molecular absorption spectrometric method ..		18
Annex K (normative) Determination of nickel content -- Molecular absorption spectrometric method		19
Annex L (normative) Classification of stearic and stearic acid/palmitic acid blends and typical physical and chemical properties		20
Bibliography		22
