ISO/TS 80004-12:2016-03 (E)

Nanotechnologies - Vocabulary - Part 12: Quantum phenomena in nanotechnology

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Terms describing (or related to) general quantum concepts 1

3 Terms related to basic quantum effects 3

4 Terms describing size-dependent quantum effects 4

5 Terms related to structural organization 5

6 Terms associated with quantum effects 6

Annex A (informative) Some current terms in classical and quantum physics 8

Annex B (informative) Mapping between terms and some applications and products in nanotechnologies 9

Annex C (informative) Index 11

Bibliography 12
